TEMPORARY SPACE SOLUTIONS FOR THE MEDICAL FIELD AND ER EXPANSION

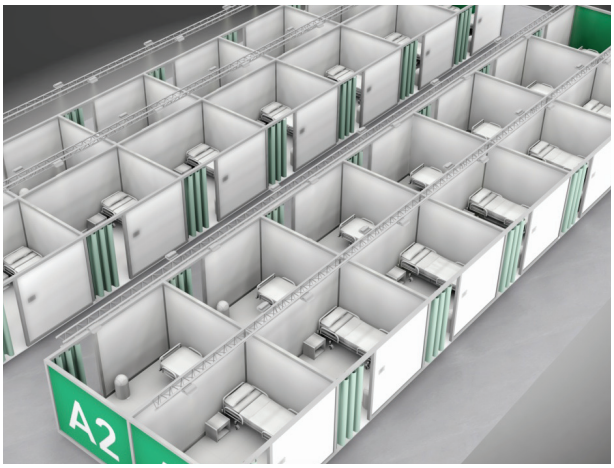
We‘re your partner for mobile, temporary facilities and we provide support for companies, hospitals, health authorities, government, medical offices and crisis support teams.

Disinfection unit, external view

Disinfection unit, interior view

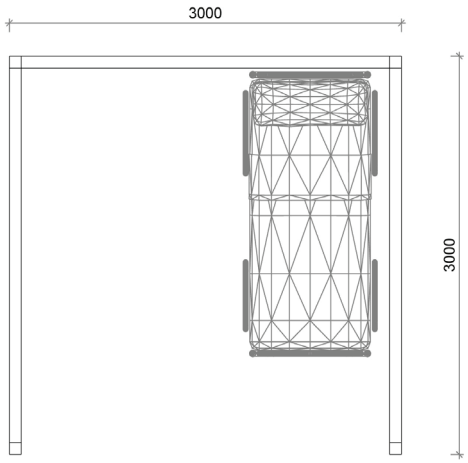


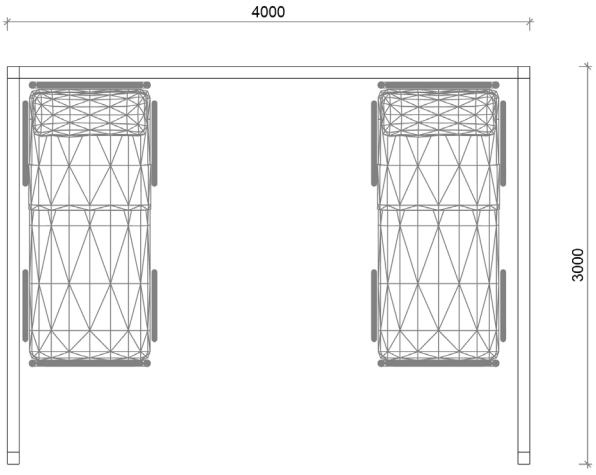
Temporary patient rooms

Easily configurable to accommodate large numbers of patients.

TEMPORARY HOSPITAL

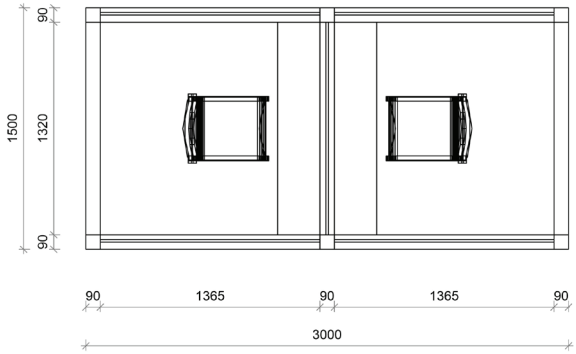
You just define space by size and quantity and we will provide you with the complete project management incl. planning and realization. We take care for the whole room-in-room-system with walls, beds, stools, etc.

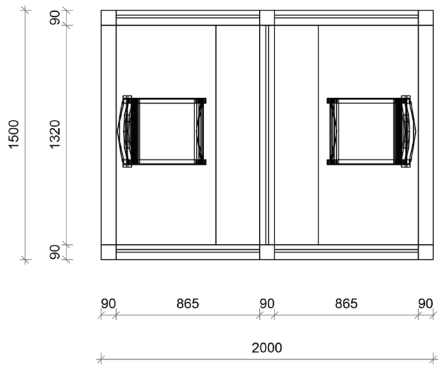




CONVERSATION ROOM INDOOR

We enable the important contact between residents of for example retirement homes and their family members.





TEMPORARY DRIVE-UP DIAGNOSTIC CENTERS

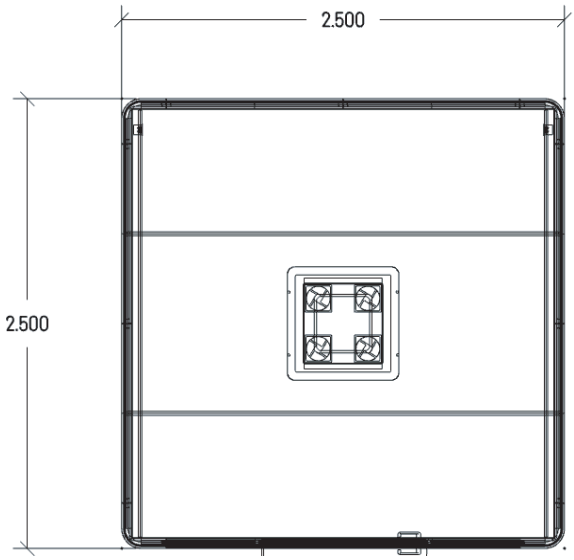
Ideal for swiftly processing and analyzing patient samples.

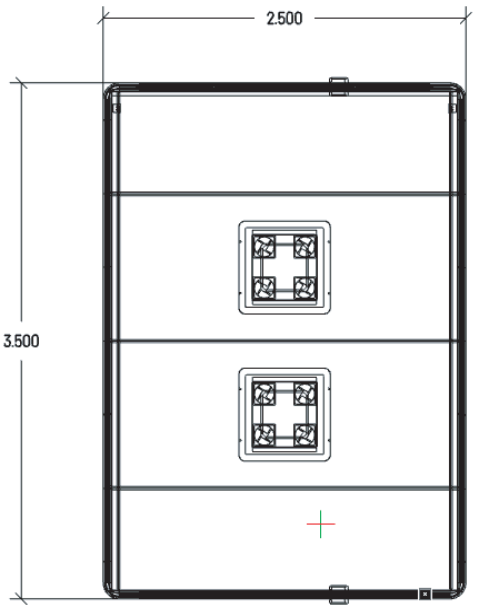
sedus

VON HAGEN MEDIC

TEMPORARY OFFICE SOLUTIONS

Providing security for your personnel who need separate space.



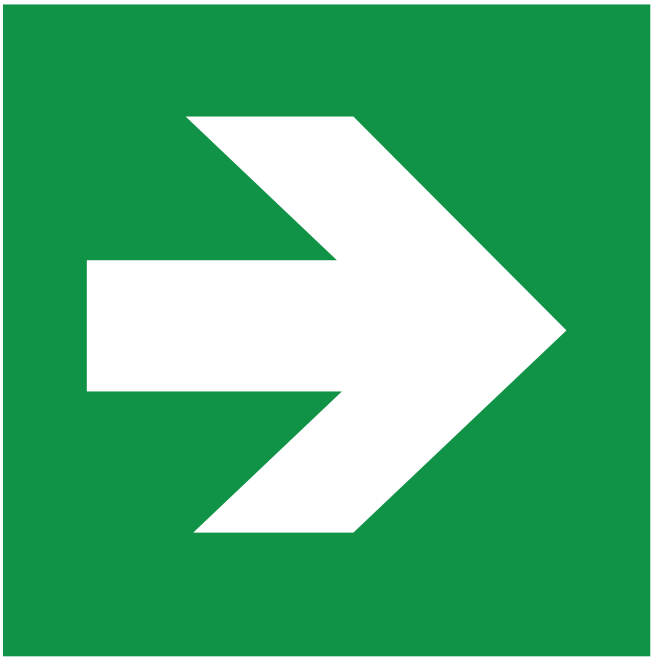


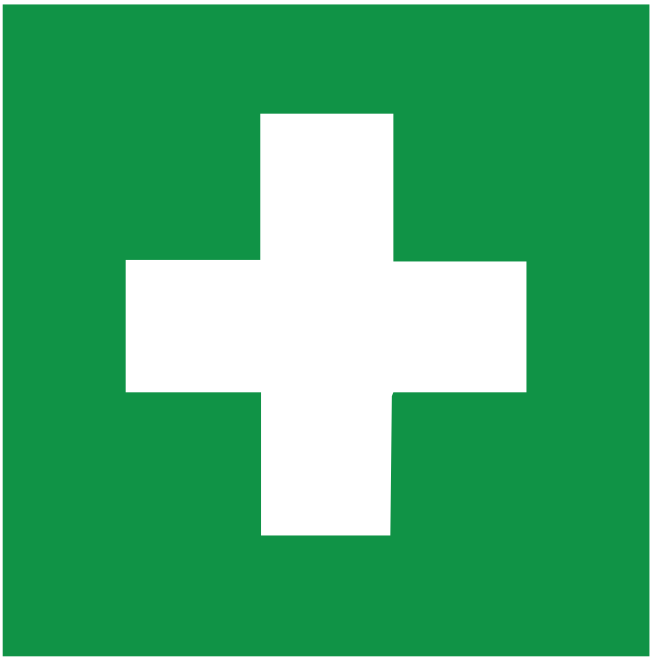
VON HAGEN MEDIC

DIRECTIONAL SIGNAGE FOR PATIENTS & STAFF

Effective signage to support separation of the healthy from those who are suspected or confirmed to be infected.

We supply signs and privacy screens, wayfinding guidance and temporary barriers for separation and isolation of large groups of patients. We provide the infrastructure you need to establish a large scale isolation area.





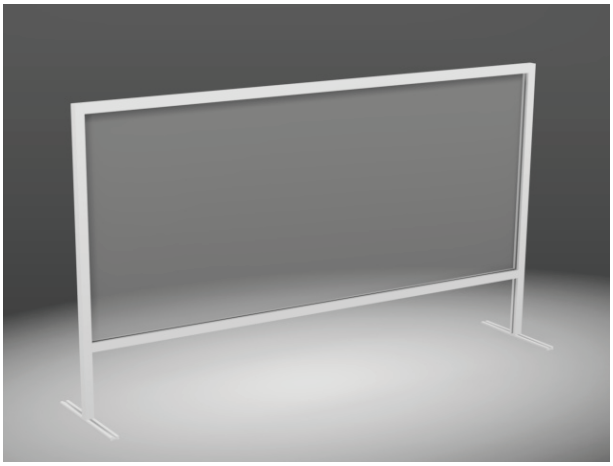
MOBILE INFORMATION SYSTEMS

Providing you and your patients with flexible, clear and unambiguous communication.

SNEEZE / SALIVA GUARDS

Offering increased safety for your staff, and ideal for public locations such as supermarkets, pharmacies, banks and any other situation when people must interact in person.

We use VS-Glass instead of acrylic glass (goes blind).



Standard frame in white WxHxD 640x1010x380mm.
Special colors and dimensions possible at any time on request

VON HAGEN MEDIC

We want to make sure that the units will be made operable after reception. Tents have to be put up, units build, sanitary facilities placed and connected, powersupply has to be taken care of, etcetera. We will have a central officer from our side to support from distance, and share his details, we will look at possibilities to support on the ground.
